Lesson 1: Exploring Magnetic and Non-Magnetic Materials

Objective: Students will identify and categorize materials based on their magnetic properties.

Materials: Various objects (e.g., paper clips, rubber bands, plastic toys, coins, keys, wooden blocks), Magnet Chart paper and markers

Procedure:

Introduction:

Begin with a discussion on magnets and their

properties. Activity: Distribute objects to students and have them predict which objects are magnetic. Testing: Students test each object with a magnet and record results. Discussion: Review findings as a class, creating a chart of magnetic vs. non-magnetic materials. Extension: Explore why some materials are magnetic and others are not, introducing concepts like metal types. Assessment: Observe students' predictions and testing, and review their recorded results for understanding.

Lesson 2: Magnetic Force and Attraction
Objective: Students will understand how magnetic forces work by observing attraction and repulsion.
Materials: Bar magnets, Iron filings, Paper clips, Compass, Paper and pencils
Procedure:
Introduction: Discuss what magnetic force is and how it can attract or repel objects.
Experiment: Students observe how paper clips are attracted to the magnet and how like poles repel each other.
Visualization: Use iron filings to visualize magnetic field lines.
Application: Use a compass to show how Earth's magnetic field influences navigation.
Discussion: Encourage students to explain their observations and relate them to real-world situations.
Assessment: Have students draw their own magnetic field diagrams and explain the forces they observed.

Lesson 3: Building a Simple Magnetic Compass
Objective: Students will understand how magnetism can be used for navigation.
Materials: Needle or paperclip, Magnet, Small piece of cork or foam, Bowl of water
Procedure:
Preparation: Magnetize the needle by rubbing it with a magnet several times.
Assembly: Insert the needle through the cork or foam and float it in water.
Observation: Watch as the needle aligns itself with Earth's magnetic field.
Discussion: Explore how compasses work and their importance historically and today.
