The Rise of Romanized Dictionaries in Bengali Language Learning

Historically, Bengali dictionaries have primarily been in Bengali script, which limited their accessibility for non-native speakers or those unfamiliar with the script. As globalization increased, so did the demand for Romanized forms, culminating in the development of Romanized Bengali lexicons. Early efforts were manual, often in print, aimed at Bengali diaspora communities and language learners. With technological advancements, digital dictionaries and apps emerged, integrating Romanization to facilitate faster, more user-friendly access.
